

FROSTA design

produces crochet kits and handcrocheted products made from soft tricot materials. A crochet kit contains all that you need to crochet one of our products, tricot off-cuts, a crochet needle and a pattern. The collection contains smaller and larger products such as baskets in different sizes and shapes, slippers, pot-holders and mats. We wish you a FROSTA moment!

"In June 2002, a long-awaited dream came true and we moved into the house on our summer island. Around us were only cliffs, the sea and my family. The summer nights never grew dark. It was a long, warm summer and I desperately needed something to do with my hands. I found tricot off-cuts and I crocheted them with my fingers. The off-cuts that I crocheted grew and grew and soon they were decorating the bare wooden floors as carpets. Friends advised me to build on my creative ideas. I took their advise and today FROSTA design has 28 different crochet kits. FROSTA design also hand crochets limited edition interior products. FROSTA design will continue to crochet into the future and we are already on our way to worldwide recognition!"

Anna Wallin Hallgren, Ärholmen July 2010
